

# Telli Turna Bağlama Tuner

**Testers wanted!** Try the new Bağlama tuner app for free before its release

Telli Turna is a tuner app for Bağlama 🎵 Saz on Android for smartphones as well as for tablets in portrait and landscape.

The app has been tested by a Bağlama teacher and is suitable for beginners and experienced players.

## Supported tunings:

- Kısa Sap – La Karar
- Kısa Sap – Do Karar
- Kısa Sap – Si Karar
- Uzun Sap – Sol Karar
- Uzun Sap – Si Karar
- Uzun Sap – Do Karar

## How it works:

The app uses the device's microphone. The played string is detected automatically or can be selected manually. A semicircular display shows whether the note is too low, too high, or in tune:

- Green: string in tune
- Blue: too low → tighten the string
- Red: too high → loosen the string

A reference tone can be played for comparison. The note view can be selected: simple, with octave or with frequency.

## Free version:

- Kısa Sap · La Karar
- Manual mode: select string manually, Üst Tel · Üst Bam
- Discover: guided introduction to all features, with pause, resume and cancel, Pro features are marked
- Startup animation "Turna Semahı", available any time from the menu
- Help and quick start
- Language: Turkish · German · English

## Pro version one-time purchase:

- All tunings: Kısa Sap → Do · La · Si Karar, Uzun Sap → Sol · Si · Do Karar
- Automatic mode: string detected automatically
- Adjustable microphone sensitivity: 3 levels

## Further features:

- Ad-free
- No internet connection required for tuning
- Available in Turkish, German and English
- Detects out-of-tune double strings

## Note:

A device with a microphone is required. Tuning accuracy may depend on ambient conditions and the device used. Tuning in a quiet environment improves results.

## How to become a tester

1. Send the e-mail address of your Google account to [info@astering.de](mailto:info@astering.de).
2. Once approved, first sign in with this Google account (browser or device), then open the opt-in link (QR code) and tap "Become a tester".
3. Install Telli Turna Bağlama Tuner from the Google Play Store.

Free · Android 9 or newer · Feedback to [info@astering.de](mailto:info@astering.de)
